# Introductory Photography

## Learn to make pictures you love!

Introductory Photography is an 8-week course guaranteed to give you a solid foundation in the basics of photography, equipping you with the knowledge and understanding to launch you on your own journey.

Every session includes detailed instruction (with complete notes and examples provided), practice opportunities (bring your camera gear), review of images made by students, and more. Two Saturday field trips are included for a total of 10 sessions.

The first four sessions teach the buttons and dials of the camera so that you can take control. The second four sessions address the fundamentals of composition. You will learn the principles of making powerful images of people and landscapes.

Class sizes are small and there are two instructors.

**Tuesdays** in Langley, 7:00 - 9:30 pm

**Thursdays** in Surrey, 7:00 - 9:30 pm  
Exact locations are on the website

*The best accessory I ever purchased for my camera was Introductory Photography.*

*Thank you, Dennis, for helping in my transformation from picture-taker to picture-maker.*
