

# Intermediate Photography:

## *Continuing the Photographic Journey*

This second level course is designed to reinforce the foundations of photography already established and move forward to provide experience, build competence and strengthen confidence. Students are expected to have a basic understanding of exposure and camera controls. Topics will include, but not be limited to:

- Flash photography: learning to use flash so no one can tell
- Portraiture: making photographs of family and friends that are keepers
- Night photography: creating special effects when the sun goes down
- Editing your photos: An introduction to editing your images to bring out their best
- On Finding Creativity: This topic is a focus throughout the course.
- Other topics include: advanced focusing techniques, HDR (high dynamic range), and more.

The eight weekly sessions will emphasize learning from the work of each other in a coaching format as well as instruction in new techniques. Each week will include assignments and electronic notes to support your learning.

The course will include one Saturday field trip and some of the evening sessions will be on location, away from the regular classroom. Models will work with us on two of the flash photography sessions.

Equipment: Along with your DSLR, participants will need an accessory flash (speedlight) that fits on top of their camera and a tripod. Recommended: a reflector and software for editing of images.

Schedule: Sessions are from 7:00 - 9:30 PM for 8 weekly sessions.  
Two classes are held simultaneously, on Tuesdays and Thursdays.

Location: Tuesdays: Langley  
Thursdays: Surrey

Note: Dates and locations are updated on the website.

Fee: \$395.00 (includes all taxes, transaction and model fees)

The course has a maximum of 15 students and includes a teaching assistant.

***I want to say thank you to Dennis for igniting the creative photographer in me. I knew it was there somewhere, just hidden perhaps under a lack of confidence. This course covered what I needed to advance my skills ...***
